Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1, 3, 4, 8-11, 19, and 20 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the second tether anchor. It appears that without the second tether anchor, the device would not operate as intended.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1, 3, 11, and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by Neelis (US Patent 6,767,057).

Re claim 1, Neelis discloses a vehicle child seat tether anchor structure comprising a first tether anchor (242, figure 12a), a vehicle body mounting member (248) configured and arranged to be coupled to a vehicle body, and a height adjustment arrangement having a first height adjustment portion (258) fixedly coupled to the first tether anchor and a second height adjustment portion (260) fixedly coupled to the vehicle body mounting member, the first and second height adjustment portions being configured and arranged to selectively retain the first

tether anchor in at least one of a first position relative to the vehicle body mounting member and a second position relative to the vehicle body mounting member (see figure 12a and 12b).

Re claim 3, the first and second height adjustment portions (258, 260) are threadedly coupled together.

Re claim 11, Neelis discloses a vehicle child seat tether anchor structure comprising first tether anchor means for securing a tether thereto (242), vehicle body mounting means (248) for mounting the first tether anchor means to a vehicle body, and height adjustment means (258, 260) for a selectively retaining the first tether anchor means in at least one of a first position relative to the vehicle body mounting means and a second position relative to the vehicle body mounting means.

Re claim 19, Neelis discloses a vehicle structure comprising a vehicle body panel, and a vehicle child seat tether anchor structure including a first tether anchor (242), a vehicle body mounting member (248) coupled to the vehicle body panel, and a height adjustment arrangement having a first height adjustment portion (258) fixedly coupled to the first tether anchor (when 258 is tightened) and a second height adjustment portion (260) fixedly coupled to the vehicle body mounting member, the first and second height adjustment portions being configured and arranged to selectively retain the first tether anchor in at least one of a first position relative to the vehicle body mounting member and a second position relative to the vehicle body mounting member.

Allowable Subject Matter

4. Claims 2 and 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 4, 8-10, and 20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
6. Claims 12-18 are allowed.

Conclusion

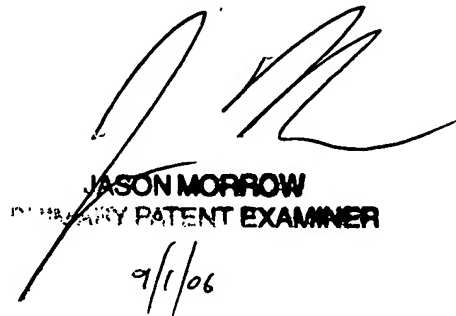

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yamamoto, Patterson et al., Smith et al., Dolan et al., Adams et al., Hirota, Cuerrier et al., Herrmann et al., Shiino et al., Mar et al., Susko et al., and Loughney, Jr. disclose vehicle child seat tether anchors.
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason S. Morrow whose telephone number is (571) 272-6663. The examiner can normally be reached on Monday-Friday, 8:00a.m.-4:30p.m..
